EDUCATION

MIT School of Engineering, Pune

Bachelor of Technology in Computer Science (Blockchain Technology)

Pune, Maharashtra

Expected September 2027

- CGPA: 7.0/10.0
- Relevant Coursework: Blockchain Technology, Distributed Systems, Cloud Computing, Data Structures & Algorithms, Database Management Systems, Artificial Intelligence & Machine Learning

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Solidity, HTML/CSS, SQL

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Shadcn UI

Backend: Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs

Blockchain: Ethereum, Solidity, Web3.js, Smart Contracts, Hardhat

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Vercel, AWS

EXPERIENCE

Frontend Developer (Freelance)

2025

9 Bit Studio - Gaming Studio

Remote

- Served as founding core team member and lead frontend developer for gaming studio's portfolio website
- Developed animated website using React.js with complex animations via Framer Motion and GSAP libraries
- Integrated Three.js for 3D graphics rendering to create immersive gaming showcase experiences
- Designed responsive UI with Tailwind CSS ensuring optimal performance across all devices and browsers

Full Stack Developer

June 2025 – August 2025

Arpita's Coaching Classes, Pune

Remote

- Developed a full-stack coaching institute website with Next.js, React.js, Node.js, Express, and MongoDB
- Built responsive landing page and admin dashboard with lead management system for student registrations
- Implemented JWT-based authentication for secure admin panel and REST API endpoints for CRUD operations
- Designed responsive UI using Tailwind CSS and Shadcn UI with Framer Motion animations for enhanced UX

PROJECTS

Competitive Analysis Agent | Python, Google Gemini AI, Streamlit, SerpAPI, Multi-Agent System Nov-Dec 2025

- Built AI-powered multi-agent system using Google Gemini ADK for automated competitive business analysis
- Implemented 5 specialized agents (Research, Analysis, Report Generation, Comparison, Visualization) working in pipeline
- Developed web scraping and data synthesis capabilities to generate comprehensive 15-20 page competitive reports
- Created interactive Streamlit web interface with real-time progress tracking and export to PDF/Markdown formats
- Achieved 96% time reduction (8 hours to 3 minutes) with session management and conversation history tracking

Coaching Institute Platform | Next.js, TypeScript, Node.js, Express, MongoDB, JWT June 2025 – Aug 2025

- Architected full-stack web application with decoupled Next.js frontend and Node.js/Express backend
- Designed MongoDB database schema with Mongoose ODM for student leads and admin management
- Built secure authentication flow with bcrypt password hashing and JWT token-based sessions
- Integrated React Hook Form for client-side validation and Axios for HTTP requests to backend API

ACHIEVEMENTS & ACTIVITIES

Hackathon Participation: Google Agentic AI Competition, Smart India Hackathon, Microsoft Imagine Cup, ISRO Hackathon

Certifications: Advanced Blockchain Development (Coursera), Smart Contract Development (Cyfrin Updraft), Full Stack Web Development (Udemy)
